Dear

Thank you for the opportunity to be considered for support by the

In the five short years since its founding, the _____ has played a major role in the transformation of _____ from a town with too many unproductive, unsupervised kids with too much time to get into trouble to one providing these youth with a valuable structured program. The _____ program uses the First Serve Life Skills Curriculum to "empower young people by providing local tennis facilities and schools with a life skills program that promotes positive values, healthy habits, and education through the game of tennis -- resulting in real life power, on and off the court."

A priority need for the _____ program, which operates summer and after-school programs, is funding for curriculum supplies and part-time program staff. In the past, we have relied on volunteer or minimally compensated staff. This has resulted in high turnover, continued difficulty attracting qualified personnel, and limited continuity for the participants whose success depends on positive role models and the relationships they build with their instructors.

The _____ is requesting \$ _____ from the _____ to support this program that makes a meaningful difference in the lives of our youth. A contribution from _____ will give us the jumpstart we need while we continue to implement our recently developed fund raising plan.

We believe that the _____ program is consistent with the mission and interest of _____ and hope that you will find it in your hearts and budget to support this program. If I can provide additional information to encourage consideration of our request, please feel free to contact me at _____. I would also be happy to personally meet with your committee to present this proposal.

Most sincerely,

Dear [Mr./Ms.] [Manager's Name],

My name is James Amore, and I'm excited to apply for the position of Junior IT specialist at the French Central Inn, Charleston. I'm a recent graduate (December YYYY) in Management Information Systems (MIS) from Charleston Southern University, and I'm eager to enter the workforce. I meet all of the academic requirements mentioned in your job posting.

Growing up, I took a liking to all things tech and digital, which led to me picking MIS as my major. Apart from all the tech courses during my MIS studies, I thoroughly enjoyed and excelled at the psychology courses, as the intersection of tech and humanity (specifically, how people respond to and adapt to technological changes) is a passion of mine. It's one that I discuss frequently on my tech blog [URL].

During my final year of university, I interned at Safe Homes Inc., a vendor providing an array of home security systems. I worked on both the hardware and software side, installing physical equipment as well as configuring the requisite software, and involved elements of IoT.

What excites me most about this position is that the role involves extensive work with the Internet of Things (IoT). As a leader in combining IoT and hospitality, working at your inn would be a fortuitous coming together of passion, competence, and opportunity.

I look forward to putting my knowledge and skills to use as a productive member of your IT department, and learning from the best in the industry. In an interview, I'd love to discuss my short- and long-term career goals and how they align with the French Central Inn's tech vision. I await your call.

Sincerely,

James P. Amore
